Dear Mr. Davis,

No, there was no additional charge by our bank.

I know what stacks are! I've not been able to wipe them out in years now. So, I can well understand how letters got lost on your desk.

By the way, where did you get the idea that I have a middle initial, D?

If you came on any interesting material on Gordon Nogel in your work and do not have to hold it back, I've had an inquiry about him and his lawyer, Jerry Weiner.

When the publisher has blurbs on your book I'd like to see what they do.

Sincerely,

Harold
